BUSINESS GOOD, WEATHER FINE

Bradstreet's Report for Week Shows Conditions to Be Encouraging.

(By Associated Press.) NEW YORK, July 17.—Bradstreet's tonerrow will say: Well-nigh perfect summer weather helps

crops, increases confidence in fall trade and stimulates rotail and summer resort

and stimulates rotali and summer resort business. Lower prices for many staples are really an encouraging development, because favorable to a wider and freer use of products heretofore impracticable under past abnormal conditions. Six months' railway earnings returns—two-thirds of the country's mileage represented—show a gain of over 13 per cent, over the best recorded, while roads thus far mre progressing for the first week of July, and show a gain of nearly sixteen per cent. These figures confirm the claim that the present business is the largest ever handled for a mideummer period. The salient features in trade reports this week are the better tone of advices from the Southwest, where the feeling grows that a large business will be done. The unsatisfactory outlook for immediate and future supplies of cotton limits activity in cotton manufacturing at the East, short time being the rule at all leading centers.

East, short time being the rule at all leading centers.

Labor troubles in textile lines at Philadelphia and in building at New York are a bar to activity in all lines affected.

Business failures in the United States for the week ending with July 16th number 173, against 154 last week, 174 in the like week of 1902, 208 in 1901, 202 in 1900 and 174 in 1899.

In Canada for the week, thirteen, as against twenty last week and seventeen in this week a year ago.
